Agnes Stocks

Logos Hope has been in dry dock for a month having its annual checks and servicing. Agnes spent three weeks working on board and then a week in training and sends the following prayer requests:

- Give thanks for a safe and successful Dry Dock with us getting all the certificates we need.
- Thanks for all I have learned and pray that I will be able to put it into practice.
- Our next port is Aruba after just leaving Bonaire. Please pray that we are able to have a visit that really makes an impact.
- A friend and I are thinking of taking a few days break in Jamaica. Please pray that we are able to organize everything and have a good rest.

CHRISTIAN AID WEEK: 14 to 20 May

This year marks 60 years of Christian Aid Week. Christian Aid began when a group of Christians started to send food parcels to refugees after the 2nd World War. One of these refugees, who later came to Britain, has supported Christian Aid ever since. He said 'The people contributing through Christian Aid Week helped me to survive. I feel I owe my life to the cause'. Today the need to help refugees fleeing from war and extreme poverty is greater than ever. This is the focus of Christian Aid week 2017. Please pray:

- * For the church reps in the Purley and Kenley area as they co-ordinate house-to-house collections and other fund-raising activities
- * For all those who go out collecting house-to-house or at Purley Station that they would feel part of a collective act of witness to those living in the area
- * For the Quiz at Christ Church on Friday 19 May that there would be a great atmosphere and lots of money would be raised.
- * For all refugees that they would receive the help they so desperately need

Lord Jesus, I want my faith to be so alive that I can follow you in all things. Help me to see people as you see them and, in doing so, fill me with love and compassion for the world'
